INFORMAL PROPOSALS FOR EXAMINER INTERVIEW
NOT TO BE ENTERED

CLAIM SHEET

1. (Currently Amended) A method performed by a controller ~~embedded in~~
associated with a device for retrieving data from a server, comprising:
5 initiating communication with the server by sending a ~~command~~ message from
the controller to the server that identifies an instance of the device; and
receiving, from the server and in response to the message ~~command~~, data ~~that is~~
specific to for the instance of the device; and
using the data to affect at least one of a configuration of the device and an
10 operation of the device.

10. (Currently Amended) A method performed by a server for sending data over
a network to a controller ~~embedded in~~ associated with a device, comprising:
receiving a ~~command~~ message at the server from the embedded controller;
15 identifying an instance of the device from information in the message ~~command~~;
retrieving data ~~that is specific to~~ for the instance of the device; and
sending the data from the server to the embedded controller, the data for affecting
at least one of a configuration of the device and an operation of the device.
